NEUROPEPTIDES

Neuropeptides (1990) **17**, 213-215
0143-4179/90/0017-0213/$10.00
© Longman Group UK Ltd 1990

Subject Index to Volume 17

A

Adrenal gland
  effects of neuropeptide Y and substance P on secretory activity of dispersed zona-glomerulosa cells from the rat, 121
  morphometric changes of specific located vasopressin-reacting parvicellular neurons in the paraventricular nucleus of the rat following adrenalectomy, 127
Aged rats, ^{125}I-insulin binding is decreased in olfactory bulbs of, 193
Antiepileptic drugs, effect on somatostatin release in vitro of, 29
Antinociceptive profile of intracerebroventricular salmon calcitonin and calcitonin gene-related peptide in the mouse formalin test, 93
Arginine vasopressin (AVP): effect on burn shock in the rat of peripheral injection of AVP and its receptor antagonist, 17
Arteries, guinea pig basilar, neuropeptide Y antagonistic properties of D-myo-inositol-1.2.6-trisphosphate in, 99
Atrial natriuretic factor degradation in mouse blood in vitro and in vivo, role of enkephalinase in, 1

B

Baclofen-induced reduction in ventrobasal thalamic transmission, antagonism by a TRH analogue, of 23
Brain
  antagonism by a TRH analogue of baclofen-induced reduction in ventrobasal thalamic transmission, 23
  ^{125}I-insulin binding is decreased in olfactory bulbs of aged rats, 193
  metabolism of LHRH and TRH in, evaluation of role of prolyl endopeptidase and pyroglutamyl peptidase I in, 55
  neuropeptide Y levels in, effects of cholecystokinin peptides on, 141
  somatostatin release in rat cortical slices in vitro, effect of antiepileptic drugs on, 29
  Y_1 receptor system in mouse, C-terminal modifications of neuropeptide Y and its analogues leading to selectivity for, 117
  see also Hypothalamus
Brain natriuretic peptide reduces water intake in the rat following dehydration, 107
Bronchoconstriction, non-adrenergic non-cholinergic neural, modulation by neuropeptide Y in vivo and in vitro of, 163
Burn shock, effect in the rat of peripheral injection of arginine vasopressin and its receptor antagonist on, 17

C

Calcitonin *see* Salmon calcitonin
Calcitonin gene-related peptide, antinociceptive effects in the mouse formalin test of intracerebroventricular injection of, 93
Calcium, effect of endothelins on cytosolic free concentration in neuroblastoma NG108-15 and NCB-20 cells of, 7
Cholecystokinin
  a CCK agonist/antagonist according to dose and time of action, effect on food intake of, 187
  CCK-like immunoreactivity in the dorsal horn of the rat spinal cord: an attempt to analyse contradictory results between immunocytochemistry and radioimmunoassay, 177
  effects on rat brain neuropeptide Y levels of treatment with CCK 8 S and a potent CCK agonist, 141

D

Diet, influence on food intake and hypothalamic neuropeptide Y in the rat of composition of, 197
DIME-C7 (substance P C-terminal analogue), evidence for dose-dependent positively and negatively reinforcing effects of, 205

E

β-Endorphin (βE), isoproterenol-stimulated release from the rat pituitary neurointermediate lobe in vitro of, and evidence for preferential release of certain molecular forms of βE, 63
Endothelins, effect on cytosolic free calcium concentration in neuroblastoma NG108-15 and NCB-20 cells of, 7
Enkephalin(s)
  (Met-5) enkephalin, effects on electrically-evoked mechanical responses in longitudinal and circular strips of the cat terminal ileum of, 35
  met-enkephalin-Arg-Gly-Leu is not present in the feline species, 171
Enkephalinase, role in degradation of atrial natriuretic factor in mouse blood in vitro and in vivo of, 1

F

FMRFamide-related peptides A-18F-amide and F-8-F-amide, effects on endocrine and exocrine rat pancreas of, 87
Food intake
  effect according to dose and time of action of a cholecystokinin agonist/antagonist on, 187
  influence of diet composition on hypothalamic neuropeptide Y and, 197

Formalin test, mouse, antinociceptive profile of intracerebroventricular salmon calcitonin and calcitonin gene-related peptide in, 93

G

Gallbladder motility, effect in dogs of somatostatin on, 75
Gliadin fragment-binding to human peripheral blood lymphocytes, structural determinants of, 111

H

Hypothalamus
  enzyme immunoassays for thyroliberin (TRH) and TRH-elongated peptides in mouse and rat extracts of, 155
  morphometric changes in specific located vasopressin-reacting parvicellular neurons in the paraventricular nucleus of the rat following adrenalectomy, 127
  neuropeptide Y levels in
    effects of cholecystokinin peptides on, 141
    influence of diet composition on food intake and, 197
  substance P and substance K in the median eminence and paraventricular nucleus of the rat, 135

I

Ileum, cat terminal, effects of (Met-5) enkephalin on electrically-evoked mechanical responses in longitudinal and circular stips of, 35
Inflammation: modulation of a peripheral response to substance P by locally administered opioid receptor agonists, 45
D-myo-Inositol-1.2.6-trisophosphate (PP56), antagonistic properties on neuropeptide Y-induced contraction of guinea pig basilar artery of, 99
^{125}I-Insulin binding is decreased in olfactory bulbs of aged rates, 193
Isoproterenol-stimulated release of β-endorphin and related peptides from the rat pituitary neurointermediate lobe in vitro, 63

L

Luteinizing hormone-releasing hormone (LHRH)
  metabolism of brain of, evaluation of role of prolyl endopeptidase and pyroglutamyl peptidase I in, 55
  superactive agonist analogue D-Trp-6-LHRH, neuropharmacological actions after peripheral injection into mice of, 81
Lymphocytes, human peripheral blood, structural determinants of binding of gliadin fragments to, 111

M

Met-enkephalin *see under* Enkephalin(s)
Muscle
  effect of (Met-5) enkephalin on electrically-evoked mechanical responses in logitudinal and circular strips of the cat terminal ileum, 35
  effect of somatostatin on canine gallbladder motility, 75

N

Neuroblastoma NG108-15 and NCB-20 cells, effect of endothelins on cytosolic free calcium concentration in, 7
Neuropeptide Y
  antagonistic properties of D-myo-inositol-1.2.6-trisphosphate in guinea pig basilar arteries, 99
  brain levels of, effects in the rat of cholecystokinin peptides on, 141
  C-terminal modifications of, leading to selectivity for the mouse brain receptor over the porcine brain receptor, 117
  effects on secretory activity of dispersed zona-glomerulosa cells from rat adrenal gland of, 121
  hypothalamic levels of, influence of diet composition on food intake and, 197
  modulation of non-adrenergic non-cholinergic neural bronchconstriction in vivo and in vitro by, 163

O

Olfactory bulbs of aged rats, decrease in ^{125}I-insulin binding in, 193
Opioid receptor agonists, modulation of peripheral inflammatory response to substance P by local administration of, 45

P

Pain *see* Antinociceptive profile
Pancreas, effects in the rat of two FMRFamide-related peptides on endocrine and exocrine function of, 87
Paraventricular nucleus *see under* Hypothalamus
Pituitary (gland) neurointermediate lobe of the rat, isoproterenol-stimulated release in vitro of β-endorphin and related peptides from, 63
Proenkephalin A-derivative met-enkephalin-Arg-Gly-Leu is not present in the feline species, 171
Prolyl endopeptidase, role in the metabolism of LHR and TRH in brain of, 55
Pyroglutamyl peptidase I, role in the metabolism of LHRH and TRH in brain of, 55

R

Retina of the rat, cellular localization of somatostatin mRNA in, 13

S

Salmon calcitonin, antinociceptive effects in the mouse formalin test of intracerebroventricular injection of, 93
Somatostatin
  effect on canine gallbladder motility of, 75
  messenger RNA, cellular localization in rat retina of, 13
  release in rat cortical slices in vitro of, effect of antiepileptic drugs on, 29
Spinal cord
  cholecystokinin-like immunoreactivity in the dorsal horn of the rat: an attempt to analyse contradictory results between immunocytochemistry and radioimmunoassay, 177
  experimental transection of, effects on substance P receptors of, 147
Spleen, porcine Y_2 receptor system of, C-terminal modifications of neuropeptide Y and its analogues leading to selectivity for the mouse brain receptor over, 117
Substance K: in the median eminence and paraventricular nucleus of the rat hypothalamus, 135

Substance P
C-terminal analogue DIME-C7, evidence for dose-dependent positively and negatively reinforcing effects of, 205
effects on secretory activity of dispersed zona-glomerulosa cells from rat adrenal gland of, 121
in the median eminence and paraventricular nucleus of the rat hypothalamus, 135
peripheral inflammatory response to, modulation by locally administered opioid receptor agonists of, 45
receptors for, effects of experimental spinal cord transection on, 147

T

Thyrotropin releasing hormone (TRH)
analogue CG3703, antagonism of baclofen-induced reduction in ventrobasal thalamic transmission by, 23
enzyme immunoassays for TRH and TRH-elongated peptides in mouse and rat hypothalamus, 155
metabolism in brain of, evaluation of role of prolyl endopeptidase and pyroglutamyl peptidase I in, 55

V

Vasopressin (VP)
effect on burn shock in the rat of peripheral injection of AVP and its receptor antagonist, 17
morphometric consequences of adrenalectomy on VP-reacting parvicellular neurons in the paraventricular nucleus of the rat, 127
Ventrobasal thalamic transmission, antagonism by a TRH analogue of baclofen-induced reduction in, 23

W

Water intake following dehydration, effect of rat brain natriuretic peptide on, 107
